Sapphire Plugins Sony Vegas 6430 . . Sapphire 6430 VEGAS Pro 2.1.0 (complete version) . This plugin is the only one I was looking for. Thankyou for making such a useful plugin! Although I've never used an OFX plugin I can say that this is a good one. . Sapphire Plugins Sony Vegas 6430 This plugin is pretty good, the only one that doesn't work properly is Sapphire 6430 VEGAS Pro 2.0.0, for some reason (on my system at least) I need to link to the dll manually which is annoying. Sapphire Plugin Sony Vegas 6430 Though you can't set the visible parameter of plugins, you can do the same for effects. Just change the parameter to "FX effect #2" and make it visible. Unfortunately there isn't really a way to hide plugins per se, but you can do the same for effects. Have fun using Vegas Pro! This program really rocks...Have fun using Vegas Pro! This program really rocks... Sapphire Plugins Sony Vegas 6430 Pretty good plugin. I've only used a few of the newer plugins though. Nonetheless it's a good plugin and would recommend it. It has some minor bugs though such as minor crashes when using effects. Some effects have far more options than others. As a result, you can get lost and
