NEW: Battlestar Galactica: Blood and Chrome. Install Celtx Plus Full Version with Crack [EUROPE ONLY].Q: Django admin can't find static file I have a Django project with a dynamically generated admin. I have tried all possible solutions I could find (like adding ./ to STATIC_ROOT, adding the path to my project's.htaccess file...), but I'm still getting the same error. Anyway, my project's layout is like this: src/ main/ static/ image.png medias/ image.png bootstrap/ bootstrap.min.css application.css application.js admin.py ... my project's settings: STATIC_ROOT = '/home/mois/Projects/django/img' MEDIAs = ['/home/mois/Projects/django/img/medias'] A: I've fixed the problem: I was looking for an.htaccess inside my project, but there is no need for one. You just need to have a favicon inside your STATIC_ROOT directory. To do so: create the favicon in any image editing software (GIMP or similar). Then go to the project folder where you've stored the admin. Move the created favicon inside the STATIC_ROOT folder. Rename the favicon to image.png. That's all. Now it works. Q: How to prove $\int_0^1 \frac{1}{x^2} \sin x dx = \frac{1}{2} \left[x - \frac{x^3}{6} + \frac{x^5}{30} - \frac{x^7}{210} + \dots \right]_0^1$ I want to show that $\int_0^1 \frac{1}{x^2} \sin x dx = \frac{82138339}{de}$
